

SUMMER The Appearance Clinic & Day Spa Newsletter

SOUTH CANTERBURY'S BEST DAY SPA NOW AT THE APPEARANCE CLINIC

We are delighted to announce the arrival of our Day Spa. Everyone knows the benefits of taking time out to be pampered. As a Medical Day Spa we are able to take things to a higher level.

The advantage of a Medical Day Spa is our use of Professional Medical Grade Products (CosMedix) to perform our Medi-Facials and Medi-Body Treatments. Thus, in addition to enjoying the luxury and relaxation of a Day Spa treatment, your skin will also enjoy products that actually work.

"More than just relaxation! We will effectively treat any skin problem - That is the extra benefit of our Medical Day Spa!"
- Dr Tracy Chandler

Our CosMedix Products will nourish your skin with essential nutrients and antioxidants that both repair and prevent damage to skin. In addition, your senses will revel in the blend of essential oils that are also present in the CosMedix range.

We are delighted to announce the arrival of our new Day Spa Therapist, Melanie McLean. After an extensive nine month search of South Island Beauty Therapists, we have found a therapist who fits the high standards of The Appearance Clinic. Our philosophy is that we will always give you the service that we ourselves expect.

Melanie brings to the team exceptional experience in Skin Care Products and Client Care. She has a gentle nature and maturity beyond her years with a high level of professionalism. These attributes along with her technical abilities will ensure that your Day Spa experience has been worth waiting for. She offers a wide range of beauty therapy treatments which we have listed inside.

Melanie can also offer her Day Spa consultation and services in the comfort of your own home for added discretion. She has particular expertise in guiding clients in make-up application, from teenagers starting out in applying make-up to more mature women wanting to refresh their look. Please contact us to discuss our Day Spa services further.
