## MY FOUR FAVOURITE PRODUCTS:

**1. Reflect** A spray on sun block that you can apply on top of make-up. Need I say more? Everybody should apply sun block at least 3 times per day on sunny days and once on dull days. Previously few people would apply sun block as it involved removing their make-up. With four kiddies myself, this was not possible until Reflect arrived!

**2. Benefit Clean & Purity Clean** No more spending ages trying to wash off all traces of cleanser. These cleansers take off the make-up and clean the skin with one application which is remarkable, the also wash off quickly.

**3. Eye Believe** has made the fine lines around my eyes disappear and tightened up the loose skin that had started to appear in my upper eyelids! Magic!

**4. Blueberry Smoothie** with Pure Enzyme Skin Peel, my skin feels as if years of pollution have been stripped away.

## OTHER DAY SPA PRODUCTS:

**Glominerals Mineral Make-up** means you can say goodbye to make-up that cakes your skin with chemicals. These can inflame the skin, leading to allergic reactions and acne. Natural minerals allows your skin to breath, while giving a natural looking, flawless finish. Coverage that lasts all day!

**OPI Professional Nail Care & Polish Range**  
The OPI range needs no introduction. It is simply the best Nail care and polish range in the world.

**St Tropez Tanning System** is the most popular choice of spas for sunless tanning, worldwide. It is also the most highly rated by consumer magazines.
